# What Companies Are in the Finance Field?

## Your Guide to Finance Companies

Interested in a career in finance? Learn about different types of financial businesses and the key companies that make up the industry.

By Dillon Price, Monster Contributor

You've likely heard the saying "Money makes the world go round." The finance industry puts money in our pockets, keeps businesses intact, and gives us funding for all the essential things—and luxuries—we strive for. If you're looking for job opportunities in this lucrative industry, read on to learn what companies are in the finance field and what benefits they offer employees.

The financial sector offers both job security and high salaries. According to the Bureau of Labor Statistics, some finance occupations—such as [financial analysts](#) and [personal financial advisors](#)—are expected to grow at above-average rates over the next decade.

Below, we'll explore the most common types of financial services companies and the best places to work in finance.

## Types of Finance Companies

Before delving into what companies are in the finance field, take some time to familiarize yourself with the most common types of finance companies:

- **Commercial Banks:** Commercial banks are financial institutions that offer general **banking services** to individuals and businesses.
- **Central Banks:** Central banks are monetary authorities that offer financial services to government agencies and the commercial banking system.
- **Credit Unions:** Credit unions are member-owned and nonprofit financial institutions that offer the same services as commercial banks.
- **Investment Banks:** Investment banks purchase holdings and newly issued shares and resell them to investors.
- **Savings and Loan (S&L) Associations:** S&L associations provide savings deposits, mortgage loans, and loans for home renovations.
- **Insurance Companies:** Insurance companies provide insurance policies designed to protect individuals and businesses from liability and damages.
- **Brokerage Firms:** Brokerage firms connect buyers and sellers to complete investment transactions. They typically work with stocks, bonds, and other securities.
- **Mortgage Companies:** Mortgage companies underwrite and issue financing to homebuyers with their own capital.
- **Financial Planning and Advisory Firms:** Financial planning firms help individuals and businesses set financial goals and allocate their funds in a way that increases wealth.
